

# DSC Training Center, Berlin

Qualifications are the key to tomorrow's success

## SDL Trados Studio 2009 – Intermediate

This course teaches further functions in SDL Trados Studio 2009. These include creating, managing and running projects and using the new options available for increasing the efficiency of the translation process. The quality assurance functions and methods are also looked at in more depth. The course is held in small groups, with a maximum of 8 participants. It forms part of the official SDL Trados certification programme, in preparation for Level 2 Online Certification.

### Course content

- \* Projects with several documents
- \* Using placeables and auto-localisation
- \* Filter settings for file formats
- \* Quality assurance with the QA checker
- \* Further options for configuring translation memories
- \* Working with DTP file formats
- \* Using AutoSuggest
- \* Customising the program interface

After the course, you can build on the knowledge you have acquired in the training room by trying out examples of your own.

### Target group

The course is aimed at users who have already worked with SDL Trados 2009 or have the relevant previous knowledge.

### Tutors

Hans Pich and John Mercer

### Course location

DSC Training Center, Joachimstaler Strasse 17, 3rd floor, 10719 Berlin

### Duration
